ABOUT ME

I am a highly motivated student with a passion for creative technology. I enjoy designing and developing with focus on accessibility and the user experience. I am an agile and flexible programmer and have experience in multiple programming languages and all fases of the development process.

EDUCATION

Creative Media and Game Technologies Bachelor, Rotterdam University of Applied Sciences

September 2019 - Present

At my current study I am learning the ins and outs of coding and software design and development.

Game Design and Development Minor, Rotterdam University of Applied Sciences

September 2022 - February 2023

At my minor I functioned in a team simulating an independent game studio as developer and producer. I learned a lot about team management, game development and the full software production process.

Havo, Herbert Visser College, Nieuw-Vennep

2013 - 2018

WORK EXPERIENCE

Frontend Webdeveloper Internship, Minty Media, Haarlem

August 2021 - January 2022

As frontend developer at my internship I made designs with AdobeXD and worked with WordPress, HTML, CSS, JavaScript and PHP to create websites and webshops. I had close contact with our customers to receive assignments and apply feedback directly.

Private Tutor, StudentsPlus, Hoofddorp

September 2020 - Present

As tutor I work freelance to assist students with any difficulties they might have which helps me develop my communication and time management skills.

Peercoach, Rotterdam University of Applied Sciences

September 2020 - July 2021

As peercoach I worked for my study to assist other students and I was involved with event management, teaching and tutoring.

SKILLS

Webdevelopment

HTML ★

CSS ★

JavaScript ★

React.js
